

# Exceptional. It's what we do.

When health care teams follow the latest treatment guidelines, patients' results improve. That's why we're proud the American Heart Association and American Medical Association has recognized us as a GOLD LEVEL practice in blood pressure control. And that means more patients live longer, healthier lives.

**We're here when you need us.**

---

In recognition for achieving 70% or greater blood pressure control among adult patients.
